I made THIS MIX when there were dark clouds about me. I don't care what you think of it but I do care about how you're feeling. Rather, I want you to be doing well and feeling happy. Let's not be sad forever. If you narrow your scope and take a peak inside you'll see you're really wonderful. I think you're wonderful. You're wonderful. You're really wonderful. You are yourself and that is why you're wonderful.

LISTEN TO THIS and feel positive about EVERYTHING in your life. I want you to feel positive about your life. It doesn't affect me but as I said before, I do care about how you're feeling. You have so many positive things going on in your life. Take account of your blessings and see how you're digging down and working through stuff. Stuff can be really hard but you've got it and you're doing alright. We're ALL doing alright. JUST stay posi.
